2010 edition

Portugal and Spain: Comparisons in the European context

Statistics Portugal and Statistics Spain are launching the 7th edition of the "La Península Ibérica en Cifras / The Iberian Peninsula in figures", with data for 2010.

The publication presents a stimulating range of official statistical indicators grouped into 15 themes, in many cases with regional level detail, allowing setting comparisons between the two neighboring countries and detecting the position of each one in the European Union context. It also challenges users to consult the wide variety of official statistical information, freely available at the websites of Statistics Portugal, Statistics Spain, as well as at Eurostat.
